Meeting Purpose: The purpose of the Advisory Group is to advise LADWP in developing a robust and actionable power plan (Power SLTRP), with a 25-year planning horizon, that aligns with state and local goals for electric sector decarbonization. Guided by this plan, LADWP will continue providing safe electric service while maintaining reliability, resiliency, and affordability in an environmentally just and equitable manner. The AG’s valuable feedback and questions received during this set of meetings will help inform rigorous modeling efforts, wider-scale community outreach, and various strategies to identify the optimal pathway and resource combination to reach LA’s clean energy goals.
