## What is the Electronic Request-Solicit-Procure System (eRSP)?

- eRSP is an internet-based software program that provides the following electronic procurement functionality:
  - Online vendor registration
  - Online posting of bids and email notification to vendors
  - Online submission of electronic vendor bid responses
  - Online viewing of list of bidders, bid recap sheet, and awardee
- eRSP will eliminate the pain points of a paper-based procurement process

**What are the pain points  
of a paper-based procurement process?...**

## Paper Based Procurement Process

## The Pain Points...

- Bid opportunities have limited visibility in the newspaper
- Paper bidding and awarding process is labor intensive
- Paper bidding and awarding process is difficult to track
- Have to wait for the mail for the award notification

## What can vendors do via the Internet with eRSP?

- Register to do business with LADWP online
- Receive, view and respond to bid opportunities online
- Ask questions and receive answers on bids online
- View bid results online after the bid closes:
  - List of bidders (i.e. the vendors who bid)
  - Bid recap sheet (after it is posted by the Buyer)
  - Awardee (i.e. the vendor who received award)
- Receive award notifications via email

## What won't change until eRSP Phase Two?

- Bids for the Phase Two purchases listed below can be accessed electronically at [www.labavn.org](http://www.labavn.org) but will still be submitted via the current paper-based process:
  - Lodging and Salvage Sales
  - One-time purchases over \$150,000
  - Personal/Professional Services
  - Price & Time Contracts
- PO's will still be paper, look the same, and be mailed after award
