

SAVE ENERGY 

Window Air Conditioner Recycling Program

Fact Sheet

Description

LADWP offers our residential customers a rebate through the Window Air Conditioner Recycling Program to encourage safe and environmentally friendly recycling of old, inefficient window air conditioning units.

Benefits

Retiring your old window air conditioner can help reduce your energy bill by up to \$240 per year*. In addition, you may be eligible to receive a \$25 pre-paid rebate gift card for recycling your old, inefficient window A/C.

**Based on a 10 SEER (1200-Watt/12,000 BTU) window air conditioner operating for 8 hours a day, 6 months out of the year.*

Eligibility Requirements

- You must be an LADWP residential customer with an active electric account.
- Window-mounted air conditioning unit must be a plug-in type in working condition.

To Participate

- Option 1: Bring your old working window A/C unit to a scheduled event. Dates and times will be posted at www.ladwp.com/windowac.
- Option 2: Have your old working window A/C picked up and recycled by the Appliance Recycling Centers of America at the same time when you recycle your old refrigerator or freezer. Visit www.ladwp.com/retire for more information.

Additional Information

- Rebate funding is available on a first-come, first-served basis.
- Rebates will be processed within 30 days of appliance drop off or pick up.
- Customers may recycle a maximum of three air conditioning units per household per year.
- Participants must own the air conditioning unit or have the owner's permission to recycle the unit.

Need a Replacement?

If you purchase a rebate-eligible replacement, you can receive an additional \$50 rebate through our Efficient Product Marketplace. Please visit www.ladwp.com/epm for more information.
