

LOS ANGELES DEPARTMENT OF WATER AND POWER  
 ENVIRONMENTAL AFFAIRS DIVISION  
 111 N. HOPE STREET, ROOM 1044  
 LOS ANGELES, CALIFORNIA 90012  
 CALIFORNIA ENVIRONMENTAL QUALITY ACT

# NOTICE OF EXEMPTION

Submission of this form is optional. The form shall be filed with the County Clerk, 12400 Imperial Highway, Norwalk, CA 90650, pursuant to Public Resources Code Section 21152(b). Pursuant to Public Resources Code Section 21168(d), the filing of this notice starts a 35-day statute of limitations on Court challenges to the approval of the project. Failure to file the notice results in the statute of limitations being extended to 180 days.

<b>LEAD CITY AGENCY AND ADDRESS:</b> Los Angeles Department of Water and Power (LADWP) 111 N. Hope Street, Room 1044 Los Angeles, CA 90012	<b>COUNCIL DISTRICT</b>  11
---	-----------------------------------

<b>PROJECT TITLE</b> Scattergood Pershing Olympic Transmission Line (SPOTL) Project	<b>LOG REFERENCE</b> N/A
--	-----------------------------

**PROJECT LOCATION**  
 The SPOTL Project alignment extends from Receiving Station K in the north to Scattergood Generating Station in the south. Receiving Station K is located at 1840 S Centinela Ave, Los Angeles, CA 90025 and Scattergood Generating Station is located at 685 W Grand Ave, El Segundo, CA 90245. Work associated with the project would also take place at Hyperion Terminal Tower, located adjacent to Hyperion Water Reclamation Plant (12000 Vista Del Mar, Playa Del Rey, CA 90293).

**DESCRIPTION OF NATURE, PURPOSE, AND BENEFICIARIES OF PROJECT:**  
 The SPOTL Project consists of three primary components, which include the decommissioning of the existing underground Scattergood – Olympic Transmission Line 2 (SCAT-OLY 2), the installation of underground transmission line cables between Scattergood Generating Station and Receiving Station K (Scattergood – Pershing B and Pershing – Olympic B) using existing infrastructure, and work at associated electric utility facilities. Work at associated facilities, including Scattergood Generating Station, Receiving Station K, and Hyperion Terminal Tower, would involve the demolition of existing equipment and infrastructure, and the installation of replacement equipment and infrastructure. This work is necessary to complete the decommissioning and de-energizing of SCAT-OLY 2, and complete the connection of electric transmission cables installed between Scattergood Generating Station and Receiving Station K to existing electric transmission utility infrastructure. Project implementation would result in improved power system reliability and energy storage capabilities by reinforcing the existing transmission system.

<b>CONTACT PERSON</b>	<b>AREA CODE   TELEPHONE NUMBER</b>
Eduardo Cuevas	(213) 367-3553

**EXEMPT STATUS:**  
 CEQA Guidelines Article 19 Categorical Exemption Section 15302 Replacement or Reconstruction – Class 2

**JUSTIFICATION FOR PROJECT EXEMPTION:**  
 In accordance with the California Environmental Quality Act (CEQA), it has been determined that the decommissioning of an existing underground transmission line, installation of a transmission line within existing infrastructure, and modifications to existing electric utility facilities are exempt pursuant to the Categorical Exemption described in CEQA Guidelines Section 15302, Class 2, Replacement or Reconstruction. Class 2 includes the replacement or reconstruction of existing utility systems and facilities on the same site and involving negligible or no expansion of capacity.
