

THE FUTURE OF WATER IN LA

Sepulveda-Venice Water Pipeline Connection

Project Description

The Sepulveda-Venice Water
Pipeline Connection is an
important infrastructure investment
to increase reliability of Los
Angeles Department of Water and
Power's (LADWP) water
distribution system to the West Los

As part of the project, a new regulator station will be constructed on Bentley Ave., south of Venice Blvd. to control and reduce water pressure coming from the MWD system. In addition, a pressure relief station will be installed on Bentley Ave., north of Venice Blvd.

The project was approved for reimbursement from the State of California through the Proposition 50 fund grant program.

Construction Information

To reduce the impacts to the community, the project is divided into 7 work areas. Construction will move from area to area to minimize traffic impacts throughout the duration of the project. Working hours will be Monday through Friday, 8:00 a.m. to no later than 7:00 p.m., and Saturday work may be required. Access to business and residences will be maintained at all times.

Traffic lanes will be restriped on Sepulveda Blvd. and Venice Blvd. to accommodate the work stages. Parking on those streets will be restricted during construction. Temporary No Parking /Tow-Away signs will be posted as needed.

Project Schedule Summer 2018 – Summer 2020 Region West Los Angeles Angeles area. The project will provide an emergency connection to the Metropolitan Water District of Southern California (MWD) water supply by constructing a new trunk line that will be connected to an existing pipeline. The new steel trunk line will be between 20-inches and 54-inches in diameter and extend approximately 1,700 feet under Sepulveda Blvd. and Venice Blvd. within the City of Los Angeles and Culver City.
