

# Residential Electric Vehicle Charging Station Rebate Program

## QUALIFYING PRODUCT LIST

LADWP does not endorse any particular manufacturer or brand. We recommend individuals do their own research to ensure the charging station meets their needs. This list is not exhaustive and will be updated quarterly. If you do not see a particular charging station on this list and it meets the program criteria, please contact [pluginla@ladwp.com](mailto:pluginla@ladwp.com) for a review.

Note: Plug-in charging stations are eligible only if installed hardwired according to manufacturer instructions. Charging station and/or EV Meter must be installed by a licensed electrician if you want to claim installation costs under the program.
