Project Summary

LADWP's contractor, Doty Bros, will be excavating and backfilling trenches to install new underground equipment as part of the Sunset Corridor work for the Palisades Permanent Rebuild project. This type of work has been ongoing since the spring of 2025 and can be observed in action on Sunset Boulevard adjacent to Will Rogers State Park lands.

Your patience and understanding are sincerely appreciated as we undergo this rebuild effort. We will minimize traffic impacts and share updates at [LADWP.com/Palisades](https://ladwp.com/Palisades), as well as through our community partners at the Pacific Palisades Community Council, Council District 11, and the Office of Mayor Karen Bass.

What You Can Expect to See

Now Through July 24

- **Preliminary potholing** to confirm utility underground locations through July 24th.
- **Traffic flaggers** will be on site to manage traffic flow.
- **Allenford will remain open** but may be reduced to one-lane traffic in various locations.
- **Digital message boards** will be located on Sunset Blvd. and San Vicente Blvd. to notify drivers of detour routes.

July 25 – August 9

- **Underground electrical substructures** will be installed between July 25th and August 9th.
- **Traffic lanes on Allenford** - in single block segments - may be closed completely from time to time.
- **Traffic flaggers** will direct vehicles to alternate routes.
- **Digital message boards** will be located on Sunset Blvd. and San Vicente Blvd. to notify drivers of detour routes.
