Percenta	age of Retail Sales C	overed by Retire	d Unbundled RECs ³ :	1%	0%	
¹ The eligible renewable percentage above does not reflect RPS compliance, which is determined using a different methodology. ² Unspecified power is electricity that has been purchased through open market transactions and is not traceable to a specific generation source. ³ Renewable energy credits (RECs) are tracking instruments issued for renewable generation. Unbundled renewable energy credit (RECs) represent renewable generation that was not delivered to serve retail sales. Unbundled RECs are not reflected in the power mix or GHG emissions intensities above. The unbundled RECs retired in association with LADWP's 2020 electricity portfolios were sourced from eligible renewable energy generators using biogas, biomass, eligible hydroelectric, solar, wind and geothermal energy resources.						
For specific information about this electricity portfolio, contact: Los Angeles Department of Water and Power 1-800-DIAL-DWP						ower
